

All Volunteers
Master Naturalists. Master Gardeners, Garden Clubs
The Native Plant Society
Come be a part of history

A Call To Arms With a shovel

Saturday, February 13 from 10:00 to 2:00, rain date February 20.

You are invited to come be a part of history .

The Friends of Fort Fremont Historical Park and the LowCountry Master Naturalist Association invite you to join us for an important winter planting at Fort Fremont. We are asking all volunteer groups to join us for this very important project.

The mission is to restore native plants, to promote biodiversity, raise community awareness of plant conservation, and preserve the natural and historic legacy of this unique and historic site.

After the planting a tour by the Friends of Fort Fremont will be given to all interested with the history of the fort and the role it played in the Spanish American War.

What to Bring
Gloves, shovel, loppers, saw,
favorite gardening tools and lunch.
